### Spanish Communication and Reading -1

- **Open to students under 10 years old**
  - ✚ This class focuses on building basic communicative skills among young students.
  - ✚ The learning of basic Spanish components include the study of the Alphabets, pronunciation, greetings, numbers, time and date, basic indication of facts (name, age, address, school and activities), basic description of objects and people, and basic physical and emotional conditions.
  - ✚ Students will use the learned components to introduce themselves, to describe and acquire basic information, and to answer relative questions. Spanish children's stories will be used as reading samples.

### Spanish Communication and Reading -2

- **Open to students 11 years old and up**
  - ✚ This class focuses on comprehension in Spanish communication and reading at a higher level, with study of major grammatical points and vocabulary, and drills in speaking activities.
  - ✚ Reading samples are selected from Spanish journals, daily life scenes from multimedia, art and literary works in accordance with students' levels and interests.
  - ✚ Students will practice on making written and oral presentations on topics in Hispanic world including discussion of current social themes.
